

Ian Jeremy is our contact for Canberra and Sydney.

He is a registered nurse specialising in neuro-otology and learning difficulties with over six years experience working with drug free therapies for families and children experiencing learning difficulties.

With a love for education, he enjoys providing concise practical information on learning difficulties and has worked alongside Occupational Therapists, Physiotherapists, Speech therapists, Exercise Scientists, and Rehabilitation Consultants as well as a number of alternate therapists.

He also has a special interest in neurological disorders such as cerebellar hypoplasia and ocular motor apraxia as well as balance and clumsiness rehabilitation.

Ian provides a Move to Learn clinic on Tuesdays between 8am and 6pm from his home office in Chatswood. He is also available on call if you would like a consult in your own home and is happy to speak to long day care and early childhood centers about Move to Learn as well, in order to assist with school readiness.
