

Veronica Steer is our contact for South Australia.

She is an Occupational Therapist with her own practice in the city of Adelaide, who currently works predominately with individuals with Learning Difficulties from pre-schoolers to adults.

Her work involves formal assessment and intervention of the main foundation areas for learning: sensory integration, integration of primitive reflexes, visual and auditory integration.

Move to Learn sequences, Rhythmic Movement Training, The Listening Program and Kinesiology within the occupational therapy framework, forms the prime means of assisting with learning at the moment, and she works in close association with Occupational Therapy for Children, a sensory integration therapy based practice in Adelaide.
