

DECEMBER MISSILE

Christmas Greetings

We wish you the very best for Christmas of 2006. Thankyou so much to those who have given us feedback about the Missiles or passed them on to others. You have helped to recruit for our army.

This coming year we will stage a co-ordinated attack against the lack of knowledge about the root causes underlying the whole spectrum of learning difficulties.

Others In The World Moving To Learn

We have recently found 2 allies in this war - one in the United States, Developmental Movement Play and one in England JABADAO (National Centre for Movement Learning & Health). We are all interested in researching the area of specific kinds of movement and academic learning.

JABADAO's website is www.jabadao.org
Developmental Movement Play's website is www.developmentalmovement.org

Those interested in research also include Australia's Maureen Hawke from Learning Connections, Brisbane.

Jill Sherlock Library

The Jill Sherlock Memorial Learning Assistance Library is an initiative of the NSW Department of Education and Training and the Sherlock Family. This state facility provides resources to assist teachers and parents with the education of students with learning difficulties. Well worth a visit to:

<http://www.sherlocklibrary.det.nsw.edu.au/opac/>

NEW BOOK! - School Floors

School Floors should be out in February/March 2006 - How to get the Movement Sequences into schools.

Warning Against XYLITOL

Out of ignorance I recommended Xylitol in the September 2005 Missile as an acceptable alternative to sugar. I now need to claim lack of knowledge as my defence because I have recently found Xylitol is one of the groups of polyols that are sugar free sweeteners including sorbitol. The Warning on the Xylitol label has been criticised as not being specific enough.
“Excess consumption may have a laxative effect” does not indicate the possibility that the effects may be more serious than that.

Recommended reading for Brain Buffs:

Brain cells have been found in other organs than in the brain itself: Candace Pert in “Molecules of Emotion”

Paul Pearsall tells us about brain cells in the heart: “The Heart’s Code”

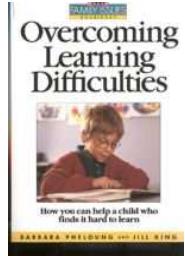

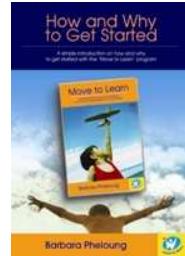

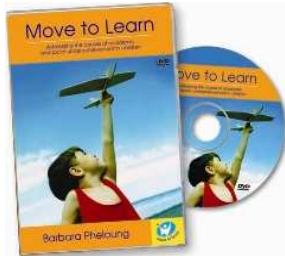

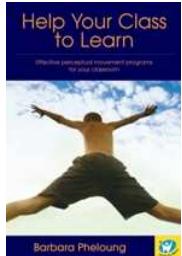

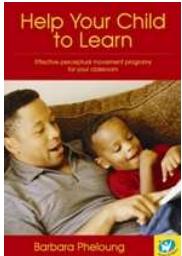

New brochures

Our new brochures will be finished this year. If anyone would like some please just let us know by email how many you need. Email info@movetolearn.com.au

Till next year,
Merry Christmas & have a fantastic New
Year! Thankyou for reading,

Barbara
Pheloung
