HI VIPS

HERE IS THE MAY EDITION OF THE E-MISSILE! ENJOY!

FEEL FREE TO PASS IT ONTO OTHERS

## *Into Teacher Education!*

**We Have Made A Huge Dent In The Armour  
- So It Is Time For A Celebration!!**

The University of South Africa for its Bachelor of Education (early Childhood Development) & the Post Graduate Certificate in Education have prescribed our developmental sequence program for all students taking the movement module.

Dr. Soezin Krog Lecturer (Unisa) says "It provides teachers with invaluable skills on how movement enables neurological development, achieves early learning readiness & helps students to learn better.

## November Seminar

We have already filled 12 of the 50 beds that are booked at the Collaroy Conference Centre. Don't leave it to the last minute, the \$500 early bird special finishes the 1st of June. After that it goes up to \$600. You can still come to the conference & not stay over-night but if you stay at the conference it is easier to attend the night fun learning sessions.

There will be something every night including several precious films you may not have seen, a night where we 'jam' on drums & everything else, & another special music activity night. And we will have ballroom dancing another night -with imported men if necessary. Dancing under the stars! Progressive husbands & lovers invited that night. More info go to [www.movetolearn.com.au](http://www.movetolearn.com.au)

# SCHOOL FLOORS

Definitely on the book shelf in June this year. The price is a bargain at \$29.99 considering the hard labour that was required & the diamonds that were dug up. The book answers the following questions & more.

- “How do I get your movement program into my school?”
- “Can we really make a difference without any special training?”
- “How can I find out where to start in helping my class or my child?”

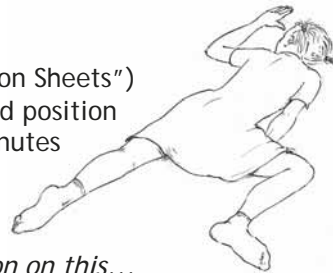

- “What physical things can we do after the 9 basic movements are finished?”
- “Do autistic or Down Syndrome children benefit as much as the others?”
- “How can I help my child whose learning problems are compounded with food allergies/ intolerance & chemical imbalance?”

This book is for those who already know a certain amount about growing new brain cells for learning & want to share with & help others. Help Your Class to Learn still accompanies the DVD/video for an extra \$10.00.

## To Calm Down Before Sleep

Svea Gold (author of “If Kids Just Came With Instruction Sheets”) suggests that you put yourself or your child in the lizard position with your dominant hand nearest to your face for 5 minutes before you go to sleep at night & see what happens. We would like to know what you find so please drop us a note at [info@movetolearn.com.au](mailto:info@movetolearn.com.au)

*See end of missile for important additional information on this...*

## 2006 Move to Learn SEMINAR

You Need To Be There!

The Move to Learn Seminar will be held this year at the Collaroy Conference Centre.

 Cost;  
 \$500 rego's before June 1st  
 \$600 rego's after June 1st  
 \$300 those staying elsewhere

For More Info Go To [www.movetolearn.com.au](http://www.movetolearn.com.au)

## THIS IS WHAT WE LOVE TO HEAR

One of our readers writes

*“Your book finally came in on inter-library loan today & I have just finished your introduction. I can see many similarities between my 6 yr & my 14 yr. I am so excited to keep reading! What I'm picking up already is the love, sensitivity, painstaking research & earnestness towards children with LD. I am already touched & I haven't even read Chapter 1 yet..”*

*P.S. I received the brochures & flyers from Rick. Once I've read the book, I can hand them out informed as I speak with parents/teachers.”*

## Move to Learn Website

We have had since April 2005, 7,215 unique visitors to our website.

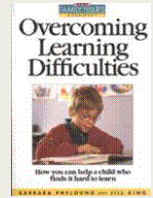

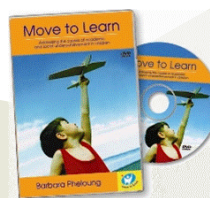

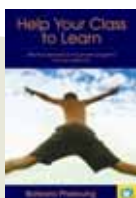

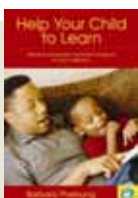

Have you seen our website? [www.movetolearn.com.au](http://www.movetolearn.com.au)

Be sure to let teachers, parents, professionals know about our website.

That is how we spread the word all around the world!

*Till next time, thank you for reading,*

*Barbara Pheloung & the Move to Learn Team*

## Mailing list unsubscribing information

You are receiving this newsletter because you are currently subscribed to our VIP mailing list. We will send emails approximately once a month to keep you informed about Move To Learn and our products.

If you want to unsubscribe from this mailing list, reply to with this message with the word "Remove" in the subject line or [click here](#) to unsubscribe.

### Privacy

Move To Learn will not sell or give your details to anyone.

Oops....

Something slipped by us, apparently we put in the wrong "Lizard" in the May E-Missile.

Svea Gold tells us she had been thinking of the [homo/unilateral](#) flip flop as pictured below.

However... the mistake brings up an interesting point which Svea wants to check out herself. What actually does happen if you use the Cross-Lateral Flip Flop, Anything?

If any of you have already tried it with any interesting results please let us know, and we will pass it onto Svea.
