## Greetings From Fiji Islands!

I have the great joy of having a 31 days holiday here in paradise "Why is it so good?" you ask.

The best part is not the luxuriant foliage - even though that is stunning.

And it's not the wonderful mix of Fijian & Indian taxi drivers - even though they keep you very much awake as you drive with them.

And it's not even the weekend ahead, on a boat, to the southern island of Kadavu - even though everyone on board will be Fijian but me.

And it's not the singing of the Fijians which carries you away with its great happiness in harmony.

No, the best are the children with their shining eyes dancing above two rows of the whitest teeth you have ever seen.

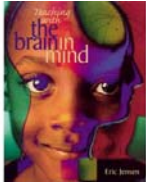

For my 31 days I've been allowed to play (it's not work) with the children of the Suva Christian Community School as well as 7 street children who are in school for the first time in their lives - 4 to 11 years & all were non-readers. What an opportunity for me to learn more about preparing children to be ready to learn. What more could I possibly ask for?

- Children ready to learn
- Arms to hug in return
- These are the treasures I'd die for!

# CONCEPTION TO BIRTH

"It's not exaggerating to say that the first opportunity to get children ready for school is in the womb." Page 20 - *Teaching with the Brain in Mind*, by Eric Jensen.

This book is a great & easy read to equip us to know more about the true nature of LD & how our growing knowledge about the human brain can equip us teachers & parents to overcome not just compensate for LD. Jensen continues "By birth, a baby's brain has more than a trillion connections & has reached 60% of the peak number of synapses (connections) that will develop over a lifetime."

If you know of anyone that needs to be at this Seminar, make sure you let them know. Book in today, as Time is running out!

Ruth Fellowes who has registered says, "I am really looking forward to the mentoring & being able to draw & learn from other's experiences & putting them into practice."

See [www.movetolearn.com.au](http://www.movetolearn.com.au) for more info

# November Seminar

We have an incredible group of people registered. They range from OT's, Kinesiologist's, Teachers, Parents, Dance & Music Therapists,

Counsellors, Teachers Aides, University Student, Principals & Youth Mentors!

2006  
Move to Learn

You Need To Be  
There!

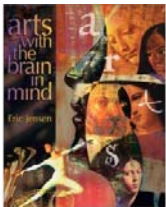

The Move to Learn Seminar will be held this year at the Collar Conference Centre.

When; Friday after dinner  
3rd Nov-Wed 8th Nov.

Who It Is For; Parents, teachers, professionals, anyone that wants to be equipped to help those with LD.

Cost;  
\$600 Registration  
accommodation/food  
\$350 those staying elsewhere

For More Info Go To  
[www.movetolearn.com.au](http://www.movetolearn.com.au)

## FOR THOSE WHO LOVE THE ARTS - A book

Some of you are artists, others of you teach & inspire students to be creative. *Arts with the Brain in Mind*, by Eric Jensen, may interest you.

## Can you do this?

Jump rhythmically on a mat or a trampoline 24 times. As you do this count the jumps out loud but on the even numbers/odd numbers/ every third number.

## Our Support Group

### At Oxford Falls, NSW, Australia

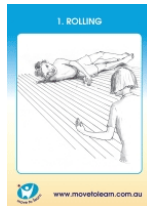

Try & see if you can be a fly on the wall at one of these meetings! Grown men rolling on the floor! Parents ecstatic over their child's progress! Grandmothers learning all they can to help that special child of theirs.

If you want to learn more about wonderful group dynamics or how you can help others, call the leader, Caroline Smart (02) 9744 8046 in the evenings. Or call our Stace here at the office in the day time on (02) 9907 7048.

## NEW!!

Have you noticed our new A3 sized posters of each specific movement sequence on the website! [www.movetolearn.com.au](http://www.movetolearn.com.au)

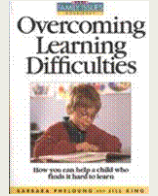

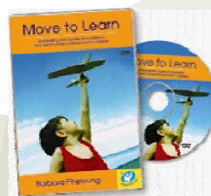

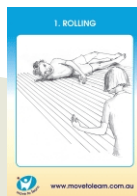

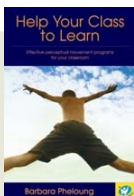

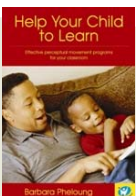

Teachers & parent are finding them very useful around the home or in the classroom as a reminder!

Till next time, thank you for reading,

Barbara Pheloung & the Move to Learn Team
