*Hello to our VIP's!*

## The Vision is Leaving the Nest

The end of 2007 is near & I will be leaving Fiji to return to my family for the Christmas summer break. I came here in May to slow down, rest, write & observe a school that never fails LD children. Mrs. Marie Susau, a principal at Suva Christian Community School came in 2006 to our seminar in Collaroy, Sydney, & further prepared herself to go a step higher in combining their ACE program with our brain cell building *Move to Learn*. Everyone, including myself, was amazed at the speed in which children changed. Each class did the movements together around their private study cubicles & they had their own ACE paces in each subject for which they had been individually assessed. This adapts beautifully to our LDs who

are always good at some things & hopeless at others. No one failed in their studies as they only competed against themselves & some didn't even know they were 'different'. Such good self images make it possible for learners to leap ahead even though they were rolling & crawling. I feel another book coming on.

While I was away my daughter Jini worked with Stacey & Rick & *Move to Learn* itself grew so much that it was better with me not around to worry them. I also want to thank the hundreds of you out there who have now taken this vision and made it your own. Rick gives us these figures to illustrate the success of all of us & from the bottom of my heart I want to thank you.

# The Vision is Leaving the Nest continued...

- We are currently averaging 321 visits per day
- 304 of those are new visitors
- They spend anywhere from 15 seconds to over one hour on the site
- The visitors are in 160 countries
- The largest number are in the USA, followed by Australia, Malaysia, China, India, Canada & the UK
- They also come from (with no favouritism) Iceland, Martinique, Falkland Islands, Czech Republic, Morocco, Kenya, Malta, Qatar, Colombia & Iran

No one can own this vision; God gives it to those who will carry it forward. But we DO want *Move to Learn* to stay on track, & we know we are on the right track, so if you want to join us & do something in

*Move to Learn's* name we ask you to contact us first. Most of you know that we are happy for *Move to Learn* seminars to be run but if you want to use our name & take advantage of our input, endorsement & advertising on the Web site you must contact our office first.

2007 has also seen the 2nd year of our University of Sydney research being carried forward - this year with around 650 students. The feedback has been very encouraging & we are excited to see the official results. We will, of course, keep you all informed!

Let's all have a merry, merry Christmas.

With love from your Aunty Barbara  
(my Fijian name)

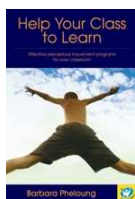

Yes, we are moving in a new direction & taking advantage of NEW technology! We are now making the majority of our books available as E-Books (Electronic Books) on our site [www.movetolearn.com.au](http://www.movetolearn.com.au).

This means that those interested can now download a chosen book directly to their computer. These can then be printed out or kept in digital format (or both).

The advantage is that the book can be purchased INSTANTLY with no need for postage. *No delay. No postage costs.* This is of particular advantage to our overseas customers. Postage can sometimes cost more than the book itself & then there is the wait & delay of 'snail mail'. E-Books mean that you can get your book cheaper & faster anywhere that there is an internet connection!

To purchase an E-Book, go to our 'Products Section' & click on 'Books'. Choose the book you want & you'll then be given the option of purchasing a hard copy or E-book version of the book. Click on E-book & follow the instructions. All you need is a credit card.

Of course, some people still prefer a hard, professionally bound copy, so we will still be offering the regular books. The difference is that now you have a choice!

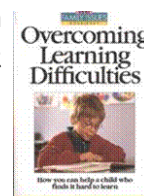

## E-Books!

There is, however, one exception. Our newest booklet, 'Ten Gems for the Brain - The Move to Learn Movement Sequences', will *only* be released in English as an E-Book.

This will save us on printing & storage costs & enables us to offer the booklet for only \$15.00, but the main reason for this is the intended usage of the booklet.

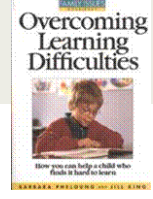

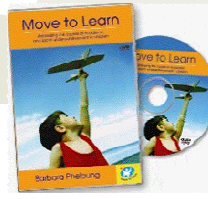

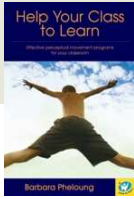

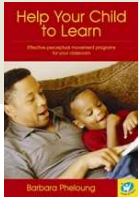

It was devised primarily as a resource for those 'in the field' & is intended to be translated into several different languages to enable it to be used in many remote & isolated settings. We are negotiating at the moment to have it translated into African & Indian languages & are also considering Chinese, Arabic, Fijian & French! Rather than keeping stocks of all these versions here at *Move to Learn*, we are passing this portion of the vision over to trusted distributors who will translate, publish, print & distribute the booklet in the areas where they are working. We will promote their contact details on our site so that anyone who wants a Zulu version of the booklet, for example, can then contact our South African translator/distributor & purchase it from them directly.

Until Next Year, Merry Christmas  
Have a wonderful New Year &  
Happy Rolling!

From The Move to Learn Team  
Barbara, Jini, Stacey & Rick

#### Mailing list unsubscribing information

You are receiving this newsletter because you are currently subscribed to our VIP mailing list.  
We will send emails approximately once a month to keep you informed about Move To Learn and our products.

If you want to unsubscribe from this mailing list, reply to with this message with the word "Remove" in the subject line or [click here](#) to unsubscribe.

#### Privacy

Move To Learn will not sell or give your details to anyone.
